Procedures relating to supervision before school and at breaks

Children are admitted to the halla in the morning from 8.40 onwards. They are supervised by staff and SNAs (Special Needs Assistants) in the halla until 8.50 in their class groupings. At 8.50 the children settle into their allocated class lines and walk quietly to their classrooms.

Supervision is provided at break times as well. The children eat their lunch in classroom at 10.50 with two members of staff supervising upstairs and two others on the ground floor at this time. The SNAs remain in their allocated classrooms whilst the children are eating.

Rang 6 help out with the junior classes, at the lunch period in the classrooms. If Rang 6 is not available, Rang 5/4 help out instead with the lunch.

On days when there is inclement weather, the children remain in their classrooms with the above supervision in place. On all other days the children go out to the schoolyard at 10.57 and four teachers and all of the SNAs supervise. Each member of staff has an allocated area to supervise. The children return to their classrooms at the end of the break at 11.05.

At the longer break the children go to the schoolyard at 12.35. The above supervision applies again and one of the four teachers on duty attends to accidents/first aid during the breaks. This teacher also attends to children who become ill whilst playing outside. At the end of all breaks in the schoolyard the children line up in their class groups at 13.00 and return quietly to class.
The main gates of the school are closed whilst the children are in the school yard at both breaks.
